NUCLEAR NEWS

The U.S. Nuclear Regulatory Commission (NRC) has approved a temporary high-level radioactive waste storage site, Private Fuel Storage (PFS), on Native American land in Utah. PFS is an unnecessary, irresponsible & unethical proposal, which does not address the nuclear waste problem this country faces. Info Public Citizen Melissa Kemp 202-454-5176 Michele Boyd 202-454-5134

A German Nuclear Safety ministry has admitted there is insufficient cover over a salt dome for it to be considered safe as a waste dump. We all must realize that there is no safe "final repository", no real "disposal" of atomic waste. (NIRS)

The Pentagon has drafted a revised doctrine for the use of **nuclear weapons** that envisions commanders requesting presidential approval to use them to **preempt** an attack by a nation or a terrorist group using weapons of mass destruction. The draft also includes the option of using nuclear arms to destroy known enemy stockpiles of nuclear, biological or chemical weapons. Info washingtonpost.com

The Nat. Academies of Science released the *BEIR VII* or 7th Biological Effects of Ionizing Radiation report on "**Health Risks from Exposure to Low Levels of Ionizing Radiation**" reconfirming the previous knowledge that there is no safe level of exposure to radiation—that even very low doses can cause cancer. Risks from low dose radiation are equal or greater than previously thought. The committee reviewed some additional ways that radiation causes damage to cells. The EPA has proposed limiting **exposure** near the proposed **Yucca Mountain** facility in Nevada to 15 millirems a year for 10,000 years into the future, but then increase the allowable level to 350 millirems for up to 1 million years. That higher level is more than three times what is allowed from nuclear facilities today by the Nuclear Regulatory Commission. A standard chest X-ray is about 10 millirems.

State-by-state legislation to provide for **testing of returning National Guard troops** may show serious contamination by depleted uranium of U.S. troops, and how are Iraqis going to react? Already Iraqis are troubled by a dramatic (seven-fold) rise in childhood cancers and birth defects, particularly in the south. See <http://www.rense.com/general67/DUtestingforreturning.htm>
